SID: My guest moves in extraordinary miracles. He prayed for a woman without eardrums and she could hear. Another lady lost 65 pounds instantly. All of my guest's spiritual senses are activated. He flew to England without an airplane and now he has been given a supernatural gift to teach you to do the same.

*Is there a supernatural dimension, a world beyond the one we know? Is there life after death? Do angels exist? Can our dreams contain messages from Heaven? Can we tap into ancient secrets of the supernatural? Are healing miracles real? Sid Roth has spent over 35 years researching the strange world of the supernatural. **Join Sid for this edition of It's Supernatural.***

SID: Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. **And I can't think of a better guest to have when I'm talking about "it's naturally supernatural" than Ryan Wyatt,** because I saw Ryan, and I saw him speaking, and so many miracles broke out. But tell me, when you were London, about the person with the, was it surgically removed, the eardrum?

RYAN: Right. She had what's called a radical mastoidectomy, and it's where they cut behind your ear; they take your eardrum out, the inner ear bones. They take all the equipment. And we were just talking about how the Kingdom of Heaven is at hand. It is in the room right now. Just like the visible realm is here, the unseen realm is here. And she really began to believe that power of God was at hand to heal her. And as she began to believe that, just sitting out in the crowd, her ear began to pop, and every time her ear would pop, she would hear something for a few seconds. And God was literally recreating an eardrum in her ear. And by the end of the service it had popped one last time, and Sid, she was hearing perfectly, better than many people in the room.

SID: Tell me about the woman that lost 65 pounds instantly.

RYAN: Yeah. Again, talking about how God is a now God; and the Kingdom of Heaven is at hand, and just making people aware of that. And the Glory of God rolled into this meeting. Actually four clouds, a little bit bigger than a human head rolled in and started to rest over certain people. And there was a woman there that had a thyroid condition that caused her to not be able to lose weight, and this cloud rested over here. She felt like electricity was going through her body. And when the cloud lifted, she stood up about 30 minutes later to go to the restroom and lost 65 pounds instantly. She had to grab a hold of her pants to hold them up. That's how dramatic the weight loss was.

SID: But are you, I mean I'm in awe when this happens. I mean, I'm sort of like a little kid in a candy store. God, you're doing it again. How do you feel?

RYAN: Yeah, I have a child-like heart, too. And it's one of the keys to really staying fresh in the Kingdom, is staying amazed by what God can do. And as often as God does miracles, every time He does them, I'm just sure to thank Him and praise Him, and have the heart of a child, and He keeps doing it.

SID: Speaking of the heart of a child, you really started early. I mean, he was in a pretty much backslidden condition, and he goes with, I guess it was with a church group, out hiking. He's about 16 years of age and he gets lost. And there's going to be a horrible snow storm and it's cold. And what happened?

RYAN: Yeah. I was lost for hours, Sid. I ended up falling into the river, extremely cold water, started to go into...

SID: How did you fall into the river?

RYAN: Well you know, Sid, I was desperate. I realized I was going to die. I realized I was out there all night. Nobody was coming for me. And there was a river that weaved like a snake through the mountains. And I thought, well I'm going to save some time. I'm going to go across these big boulders that were on this river. You know, when you're desperate you do things that aren't so smart. And I fell into the river, and then I really realized I'm going to die. And I began to, in a bit of a backslid state in my life; I began to cry out to God. And what came out of my mouth was, "God, if you will save me I will give my life to you in full time ministry." That's what I intended to say.

SID: It just kind of came out.

RYAN: That's just what came out.

SID: I understand that. I've done that from time to time. And it does sort of a mental bypass. It's coming from your spirit.

RYAN: Yeah. Desperation does thing to a person.

SID: And did you follow through on what you said? Because He did rescue you. How long did it take?

RYAN: They found me within 10, 15 minutes. I heard the audible voice of the Lord, Sid, and He spoke to me when I said I'd give my life to Him in full time ministry. All He said, "Okay." Kind of like, okay, I'll hold you to that.

SID: But at 16, you started speaking before groups.

RYAN: Well that testimony opened up. It was an amazing testimony. You know, God saved my life. Red Cross said that they wouldn't come until the next day, and they would probably be coming to get my body. And you know God supernaturally saved me. People wanted to hear that testimony and it opened up doors to a 10-state region to preach the Gospel.

SID: Okay. But then he finds out that he's hungry for God. You're hungry for God. That's why you're watching us right now. And so he goes to a little sleepy town, Pensacola, Florida. It's called the Brownsville Revival. And for some three months, you were so overcome with the spirit. What is going on there with you?

RYAN: I was desperate for God. I was crying out for God. I wanted my own encounter. You know, people were experiencing revival. But I want to be a revival. And I was in a restaurant. And Sid, I began to vibrate from the inside out. I began to feel this tangible presence of God and I can feel it right now even just talking about it.

SID: I feel it just you talking about it.

RYAN: Yeah. And I remember looking up towards the ceiling for some reason, and here came the cloud of God, the Glory Cloud, like it's mentioned in the Bible, right in the restaurant, like a mist, and settled over me.

SID: You stop that. I'm starting to vibrate as you're talking.

RYAN: Yes. Sid, I was vibrating. I could barely hold my fork. My speech began to get slurred. I was becoming incapacitated. And for two and half months, Sid, everyday this cloud would come to me. God would visit me and I would be incapacitated. I was carried out of restaurant after restaurant. And that was really a season of time where God began to teach me about His presence, about His glory, about moving and healing, and ministering to people's needs just like Jesus did.

SID: Now did you find an increase in miracles after this encounter with God?

RYAN: Absolutely. Every time you have an encounter with God, it's really like you're feasting upon Him. You know, Jesus said that he is the bread, the true bread that comes from Heaven and those who eat of him will live forever. And we're to have a lifestyle of feasting upon the Lord.

SID: But you know what I like about Ryan? He found out very quick that it's not just the miracles. It's the miracles and the character. Why is that so important?

RYAN: Well you know, God is a God of character and He's a God of power. And Jesus, everything that Jesus did in his single human body, his character, his love, his power, that's also what he wants to do through the corporate body of Christ. And if we're going to be a witness of how good God is, we can't just be supernaturally flaky. We've got to have good character. We've got to have the love of God. We've got to have integrity and the power of God. It's so important.

SID: And it's so important for you to feast under the presence of God. I mean, I don't know what God is going to do and I don't know what, He's about me, too. Don't go away. We'll be right back.

SID: Hello. Sid Roth here with Ryan Wyatt, and Ryan, what's it feel like when you're speaking for a large group and the most powerful witch in New York shows up to your meeting? Now you're a young man, but you started young. And you have such a passion for people to do what you do. Why do you have such a passion for them? Why not just you become a superstar?

RYAN: Because this is normal Christianity. And I think our standard of what it means to be a Christian has been lowered. It's very good to attend a church and be committed, and planted and rooted. But it's not just about attending a church. It's about living like Jesus. Jesus, the Bible says he was the first born among many brethren. In other words, Jesus came and lived his life on the earth as a man anointed by the Holy Spirit. Yes, he was God, but he was anointed by the Holy Spirit, and he modeled the lifestyle that's available for us. This is normal everyday Christianity.

SID: So it's time, Ryan is saying, come on. The water is great, not the water he was freezing in, the water of the Holy Spirit. It's time for you to get in the act. I mean, it's the final scene before the wrap-up. What are you waiting for? Well let's find out about the top witch in New York City that shows up at his meeting. What happened?

RYAN: Yeah. I was ministering in the East Village. And before the meeting, I had gone into what the Bible calls a trance. And Peter, the apostle Peter, had a trance, a very common experience in the New Testament. And I was shown a vision of prophesying over a girl. And as I prophesied to her, the Lord said a sign and a wonder would take place. And Sid, the presence of God came from behind me and moved right through me, and touched this girl. She began to weep and we watched as the presence of God moved back seven or eight rows. And each row that it hit, people would begin to weep. It was like a localized Glory of God. And at the end of the meeting, a woman walks up to me, who had been sitting on that last row, and she says, "Ryan, I am one of the most powerful witches in the East Village of Manhattan." She says, "I have known spiritual power from the time I was born." She said, "I'm a palm reader." She said, "I have never experienced power, though, like I did in tonight's meeting." She said, "As you would talk about Moses and the Glory of God and how it's available for us today, light would begin to fill the room like I had never seen before." She said, "That presence that moved back through the crowd was like a cloud of light." And she was seeing it all in the Spirit. She said, "When it touched me, Ryan, I've never felt love in my life that I know of." She said, "But in that moment, I felt what felt like tangible liquid love." And she said, " Ryan, I want to know this Jesus that you speak of because I've never know power like that in my life."

SID: Talking about power, tell me about the time you're in your motel room. You're meditating on the Word of God and you have a guest come in, but the door is locked, but the guest is in there? Who was that guest?

RYAN: Right. I was just praying and the temperature in the room suddenly, instantly changed. It became very warm. And I began again to vibrate and feel that presence of God coming, and Jesus walked into my room. And he was covered...

SID: That's got to be so, Ryan, that's never happened to me. What's wrong with me?

RYAN: You know what? It's available. He doesn't always come like that. He comes in different ways.

SID: No, I understand. That's so wonderful. So what did he say to you? What did he do? What did you do?

RYAN: I was weeping, for one, and he was dripping with oil from head to toe. And as he stood next to me, I became covered in oil: my skin, my hair, my clothes. And he said to me this, he said, "Ryan, I am desperate hungry that my people would lay whole of their full inheritance." And he showed me images of the cross and how many of us look at what the price he paid on the cross is just being saved. But being saved is simply the entry door to a lifestyle of the supernatural and experiencing the Kingdom. And Jesus is not wanting us to wait until we go to Heaven to experience Heaven or to experience the Glory of God. It's for now. The Kingdom of Heaven is here right now. God is now. It's at hand.

SID: We do investigations of our guests and we investigated about the rain that occurred inside Ryan's home. Tell me about that.

RYAN: Yeah. I just had a group of friends over and some of the leaders from my church, and we were watching television, talking about the things of God. And suddenly, I felt raindrops hit my skin. And I saw a slight mist in the room. And as I began to talk about it with my friends, it increased. And this mist literally moved over our sectional couch and we began right then to have an experience of the Glory of God, just like Moses did, just like the priests did in the Temple. And every single person on that sectional couch felt the rain. You could put your arm, your hand into the cloud and pull your hand out and it would be covered in like dew, moisture.

SID: Now when someone feels that rain, what is God doing? Because I have felt that.

RYAN: I just believe that God loves us so much; He wants us to experience Him. And many people ask "What's the purpose of the supernatural?" And you know, Sid, the number one answer is intimacy with God. It's not always about nation-shaking stuff, although God does that.

SID: What is the single best way for you to have intimacy with God?

RYAN: Hunger.

SID: I know. But you can't just say, okay, I want to be hungry. If you're not hungry, how do you get hungry if you're not hungry?

RYAN: I tell you what, I feed myself on what's available. And that's what I teach when I go around the world. I awaken the church to the reality that God is a now God. He's not just the God of the Old Testament.

SID: So give me one tip if I'm not hungry, what I should do. Give me one tip.

RYAN: Feed yourself on the encounters in the Bible and remind yourself that He's the same God today. And I say to God, I say, God, if they can live that lifestyle, then why can't I?

SID: Why can't you? If they can live it, why can't you? Are you Swiss cheese? No. God is not a respecter of persons. What He did for Ryan, what He did for me, He's about ready to do it for you. Don't go away because I have an idea there's going to be an explosion of miracles. We'll be right back.

*We now return to **It's Supernatural**.*

SID: Hello. Sid Roth here with Ryan Wyatt, and Ryan, you teach people how to activate every one of their spiritual senses. Of all the spiritual senses that are activated within you, what is the strongest or perhaps your favorite?

RYAN: Probably the sense of sight. You know, just like we could see, hear, smell, touch and taste in the natural, we have those senses in the spiritual.

SID: So how does the spiritual sense of sight work?

RYAN: God speaks to me a lot through vision, through visions in my mind. Many people might hear the voice of God like a thought. A lot of times, I see things like for words of knowledge, for people, or for healing. A lot of times when I move in healing in a meeting, I'll look out over the crowd and I'll just see visions of different people being healed.

SID: Give me one real story.

RYAN: Well we had a woman in Cincinnati who was in such a severe car accident that the bones in her legs were crushed. The doctors removed the bones and put solid steel rods in her legs. She no longer had knees.

SID: That must have been painful.

RYAN: Very painful, yes. She had steel in her hips. She could not bend her knees. She had solid legs. And in the atmosphere, just beginning to move in a word of knowledge and speaking to bones, I said, do something you couldn't do before. And she had no knees. So she tried to bend these steel rods in her legs and ended up bending her knees down to the ground. It was an absolute miracle. She felt for the pins and the bolts in her legs. You could feel with her hand. She could no longer feel them. She had kneecaps that she didn't have before. And God, we don't know how, but He removed the metal, gave her brand new legs, brand new bones in her legs in a flash of eye, a blink of an eye, in a moment.

SID: Is this unusual when you speak or does this happen more than once?

RYAN: Oh, it's happened more than once. We've had people with twig legs, you know, paralyzed legs and had muscles...

SID: What do you mean by twig legs?

RYAN: Well there was a man who 34 years ago had a surgery on his back. They accidentally, the doctor snipped a nerve to his leg and paralyzed his leg. So now he's in my meeting 34 years later and he's got what's called a twig leg. It atrophied. There's only like three inches around. And he felt a hand press against his back, and I believe it was angels assisting in ministry, because that's what they do. They're there to glorify God and to help heal the sick. And his wife looked down and brand new muscle was exploding in his leg. Feeling came back. And he walked up front to testify as if he was never paralyzed.

SID: Now were his legs still what you call twig legs?

RYAN: No. The muscle grew and within just a moment his twig leg became the size of his normal leg and literally grew brand new muscle in the moment.

SID: You know, I am amazed, in awe, and I love the spiritual senses being activated. You had a friend that you gave much insight of the invisible world in Australia that had his spiritual sight activated. Explain.

RYAN: Yeah. For four months, night and day, he could see, hear, smell, touch and taste in the Spirit, and he learned so much about the spirit realm. One of the biggest things he learned, SID, is that what you think and what you feel is like communication in the spirit realm. In the natural, you know, we just talk or we have body language, or whatever. But in the spirit, thoughts and feelings are communication. And so many people think that they can shift the atmosphere around them or make the atmosphere around them better by manipulating things around them. But what he began to realize is that what you release from you empowers the atmosphere around you. So if you want to live in the presence of God, then release praise and worship to God. Have worship music.

SID: What did he see with his eyes when people were angry?

RYAN: Well he saw that thoughts were emitted like a color, a frequency and a fragrance. And for many people they were like blood in the water for sharks. You know, sharks can smell one drop of blood in the water from a long way away. So when people would think things like anger, bitterness, unforgiveness, depression, it would release a frequency, a communication in the spirit realm.

SID: Maybe that's why Jesus said, "Fear not."

RYAN: Yes.

SID: Because when you fear you said it's like sharks headed towards blood in the water.

RYAN: They can smell your fear. They can smell your anger, and they can smell the issues of your heart and it empowers them, Sid, to form an atmosphere around your life that's like a closed Heaven. And Jesus opened that.

SID: So does the reverse work when you're worshiping God? What did he say?

RYAN: Absolutely. When you're praising God, when you're worshiping God, when you're filled with joy, you're blessing people, it empowered the Kingdom of Heaven to form an atmosphere around you. You know, Jesus said, "I want you to pray that my Kingdom would come, my will would be done on Earth as it is in Heaven." He wants the atmosphere in your life to look like Heaven. There's no sickness in Heaven. There's no depression in Heaven. And when you begin to focus on the reality of God and just begin to live a lifestyle of praise and worship...

SID: Well wait a second now. The atmosphere is changing here. I believe there are people, and I'm hearing a very weird word for me. And when I hear something weird, I know it's God. You know, it's like out of... I'm hearing "hair". I believe that hair is being grown on your head. Hair is coming back in Yeshua. That's Hebrew for Jesus' name.

RYAN: I keep seeing skin. I literally see some of you watching this and the presence of God is coming upon you right now. You're feeling tingling on your skin. You have a skin disease, irritation of the skin and the Holy Spirit is touching you right now. I also just decree to those of you dealing with problems in your bones, you have bones that are out of alignment, herniated disks; scoliosis. Maybe you have metal in your body. Right now, we just decree to your body right now, we command bones to pop back into alignment. We command metal to dissolve, to disappear, and we just speak creative miracles. Cartilage, I see cartilage coming back into place in your body, in your joints. Some of you, I see people with fused vertebrae in different fused parts of your body and God is releasing those fuse bones and creative miracles coming right now. Hearing, right now. Hearing, right now.

SID: Stop for one second. I have to tell you. I heard "ear". Just a moment before, the same spirit that's speaking to you, it's speaking to me. That's a double witness. If you have a hearing problem or an ear problem because I saw an ear. Go ahead. Continue.

RYAN: Yeah. It's for everybody. But I also specifically see a man, and I believe it's your right ear and you're having a hearing problem. Maybe you have a hearing aid. And we just speaking healing to you right now. I encourage you take that hearing aid out. Test your ear. The Holy Spirit is touching you right now in Jesus' name. I also am hearing areas in the mouth, the jaw and dental work. And I just speak to your jaw, TMJ going right now in the name of Jesus. That clicking stopping right now in Jesus' name in your jaw.

SID: Now can everyone have their spiritual senses activated? But you know what I believe? It's not so much you praying a prayer. It's someone reading God's Word. When you read, when you meditate on God's Word, what do you do?

RYAN: When I meditate on God's Word, I realize that these are written words unless God breathes on them. So when I read God's Word, I say, "Holy Spirit, come and illuminate this to me. Speak to me through this." What happens is I'm reading the Word, the Bible that many people read, but it becomes a doorway into encounter, into moments of intimacy with the Lord where I go from the written Word to the Living Word.

SID: Speaking about going from the written Word to the Living Word, God wants to display His might, His Kingdom, not yours, not your might, not your kingdom, His might, His Kingdom through you. But the first step is you have to transfer kingdoms. You have to go from the kingdom of darkness to the kingdom of the son of His love. The way you do that is to tell God that you're sorry for every wrong thing you've done your entire life and believe the blood of Jesus washes away your sins and then you're as righteous as Jesus. And when you're clean, you say, "Jesus, come inside of me. Be Lord of my life." Say it out loud. You don't need my words. You just need a heart hungry for God.
