

Hello. Sid Roth here. Welcome to my world where it's naturally supernatural. When you get to heaven, your biggest regret may be that you could have re-scripted your life and not only avoided most of the bad, but changed it for the good, for the better for your marriage, for your family, for your career, your health, your finances. But the good news is it's not too late. Want to find out how?

*Is there a supernatural dimension? A world beyond the one we know? Can we tap into ancient secrets of the supernatural? Can our dreams contain messages from heaven? Is God ready to bring a tsunami wave of healing onto planet earth today? Sid Roth has spent over 40 years researching the strange world of the supernatural. Join Sid for this edition of **It's Supernatural**.*

SID: Well, I have one of my favorite guests here, Clarice Fluitt. She's known affectionately as the rhyming prophet. But this is ridiculous. Our last show before we did this a woman had a seizure, we prayed for her. And then we called the hospital and an ambulance came and while it was coming Clarice, you were waiting in the green room and God spoke to you. Tell me what happened.

CLARICE: He said, "You better go get her." So I went out into the hallway where she's coming in the wheelchair and I just said, "Hold on, just give me just one minute here." And moved everybody back. And I said, "Now, I'm going to pray for you and you're going to be fine. You are fine." And I said, "I command the healing power of God upon you and every plot, scheme, plan the devil had, we take authority." Anyway, I'm doing all that I know to do. And I said, "God sits in the heaven and laughs his enemy into derision. The devil did the best he could, but he lost again." She starts laughing, joy comes in, sickness goes out and we're just... And I said, "Why did you come here?" She's from out of town. And she says, "I came to hear a rhyming prophet. Just came to hear a rhyming prophet. I said, "Well, you've got a personal one-on-one." And I said, "And the word of the Lord become loud and clear, and out of you, Miss Susie, God's going to appear. You're healed. You're thrilled and shielded." Anyway, she's going, oh, she's excited. She got more than she asked for.

So they hauled her out. I said, "How are you feeling?" She's feeling good. They hauled out in a wheelchair. I went back to the green room and the next thing we have an escaped victim. She's out of the wheelchair and she comes into the green room and then I'm telling you, it was amazing here. We sit down. I hugged her, I loved on her, and I said, "Listen, God has chosen you. You are one of those at the beginning of miracles, we are seeing massive miracles." We talked about the tsunami of miracles and right in the middle of us teaching what to do, we activated the infallible, inerrant word of God. And God, oh it's so wonderful. And she's back in the room now. She's here with us. Hallelujah.

SID: That's what TV is made for. And I'll tell you what Clarice, I am fascinated about your brand new book on re-scripting your life. What do you mean by re-scripting your life?

CLARICE: Well, we're people making choices and you can choose to be healed, thrilled and chilled, or you can choose to be oppressed, suppressed, repressed, depressed, possibly home possessed. You've got the free will, it's a decision. I have made a decision to help people to understand the kingdom of God is a kingdom of words that must be voice activated. And I'm

teaching people how to say what you want. Magnify. Whatever you magnify, you create. The scripture says, "As we behold him, we are changed from glory to glory into what we're looking at." So we were taking on the image and the likeness of God. We walk with the full armor of God, the devil doesn't know us from God. I'm excited about it. So it's time that the church be glorious.

SID: You talk about a strategic partnership between our words and faith and favor.

CLARICE: Well, the thing is, you can say, I'm sick. I'm down, I'm out. Nobody knows the troubles I see. All around me is death, doom and misery. And you literally create... Whatever you honor, you draw to yourself. And when I say honor, I mean if you're going to give word to it, you're going to give verbiage to it, then it's because that's what you believe. For out of the abundance of your heart, your mouth is speaking. You may say, "I believe that Jesus is the Son of God," but I want to remind you, dear, the devil believes Jesus is the Son and God it's not going to get him healed or filled or anything. It's just you've got to be able to say what you want. The will of God is always creative, and the word of God activates the creative will of God. So we are ambassadors on this earth releasing the word of God. So our superior air power, which are angelic, they are responding to the word of God. You and I are a launching pad of the infallible inherent and awesome word of God. This is a great day to be alive in the kingdom of God.

SID: Now, you learned early on. You went to a mutual friend of ours, Kathryn Kuhlman.

CLARICE: Yes.

SID: And you went to one of her services, and you learned the power of a proclamation of God's word over you. Tell me about that.

CLARICE: Well, Sid, it was an amazing thing. What happened is that I was sick. I had tuberculosis, I had Lyme disease, I had all kinds of crazy things that were going on in my life and I didn't know... See we say, "Well I'm saved." I thought that meant I didn't have to go to hell. I believe Jesus was the Son of God. I didn't know that all the extras that went with it, like deliverance and prosperity and healing and all these good things. So I had heard that there was this woman that prayed for the sick and my husband assured me that God didn't use women. So what he feared came upon him.

SID: That's pretty good.

CLARICE: We went to this meeting and there was about three or four thousand people there and I'd never seen anything like it. Kathryn Kuhlman comes out and she is a complete absolute anomaly to anything I'd ever seen that was religious. She had red, fuzzy hair and she asks, "Have you been waiting long?" And I thought, Oh God, we're going to lose George for sure. But I went on up there. I got up there and she just walked over to me, you all, and she took her hand, this is proclamation, this is decree. If there had been a premium on ignorance, I'd had several trophies. And she put her hands on me and she said, "Dear Jesus, such as I have, I give it to her." And I landed 15 feet away from her.

SID: Now, did you really go all the way...

CLARICE: Yeah. Oh yeah. Went all the way around the room. This guy, Dino plays the piano and I'm under his piano now. I'm under the piano, the sweetest place in all the world. So I was healed in that moment. This was in 1971 and I was healed from that moment to this. And that impartation of praying for the sick, having healing, having delivered, having, have you been waiting long? I'm out there to get ahold of you if you've been waiting long.

SID: That was her favorite statement. But let me ask you this, Clarice. I read something about Dr. Jerome Stowell that is astounding. Explain that to me again.

CLARICE: Well, Dr. Stowell was an amazing scientist and he was atheist and he was all into science. He had an assignment to be able to measure the amount of energy that would be coming out of a human brain in a dying state. They were in the hospital and they set all their equipment up, and he had a microphone and in all of his instrumentation to measure all of these activities. And this woman was dying, she had brain cancer and they knew that it was terminal, that any minute she would be gone. And so she began to pray. And when she prayed, she prayed in the Spirit, she prayed and she forgave everybody and she thanked God and she says, "And I'm so excited that I know the next face I see is going to be yours." And when they see that, they heard click, click, click, click, click, click, click, click, click. And they looked at and over 55 times the energy that was that was on the machine, that an entire broadcasting company could put out, she had surpassed that, putting out that kind of energy, praying in a dying state to the Lord. And Dr. Stowell saw that with his scientific eyes, in his atheistic beliefs...

SID: That when she was in the dying process...

CLARICE: When she was in a dying process and she was praying and she was praising God...

SID: That the power was the strongest...

CLARICE: The power of God, the word [foreign language 00:09:06]. We were just moving in grace and power and glory. And that brought such conviction upon Dr. Stowell the atheistic scientist, that he became a Christian. We are a sign and a wonder. We are a sign and a wonder.

SID: When she was praying in tongues, this the point I want you to get, this woman is dying. She is worshiping God, she is praying in tongues and the amount of energy that was measured scientifically was how large?

CLARICE: It was 55 times greater than the broadcasting system that would go around the world.

SID: That would turn the world upside down. Now, what happens in hell every time we speak the opposite of God's word? You'll be shocked when you realize how it affects your entire life. Be right back.

*We'll be right back to **It's Supernatural**.*

*We now return to **It's Supernatural**.*

SID: Clarice, what happens in hell when we are stating, because we believe it, the opposite of God's word?

CLARICE: That's the difference between agreeing with God and agreeing with your circumstances. We either agree with our covenant with God, but when we begin to say, I'm sick, I'm oppressed, I'm down, I'm out, I'm weak, all of those negative things you release into the atmosphere an invitation. It's like a scent that is released in hell of unbelief and all of hell says, "The sons of God say they're sick, the sons of God say their children are in drugs and alcohol, the sons of God... And they have all power, so now we can be released to fulfill their words because hell has no power until the church speaks." The word of the Lord is in you. We have all power, all authority and responsibility and privilege to agree with God. So what happens in hell? They can't do anything until the redeemed say the negative. That's why we have to agree with God.

SID: Now, how important is it for us to agree with God for heaven to impact earth?

CLARICE: The scripture says that, "Are the angels not ministering spirits sent forth from God to aid us who the heirs of salvation." For when you and I speak the word of God, we agree with the truth of God to the degree that we comprehend it and understand it. Then the angel says, "We hear God speaking and the God lives in you and he's coming at you." You become a launching pad of the antidote to the antichrist. So what happens is that angels harken to perform the word of God that has spoken so you have superior air power. We are living in great days.

SID: You mentioned a little earlier that we are a launching pad for God. Explain.

CLARICE: Well, the scripture says, "Out of your belly flows rivers." Now, rivers by design flow away from themselves and that the word of God, it's not a river, it's rivers. So you and I release the word of God and it flows into the sea of humanity and that nothing happens until we speak. We are made in the image and the likeness of God and we can't... God didn't think us into existence. He didn't just mmmm into existence. He said, "Light be, and light jumped up. There it is. But we are made in that image. So words, Jesus is the word of God made flesh. We are flesh being made into the word of God. You are a word from the mouth of God so you reflect and absorb glory as no other person does. So we release the infallible, inherent and awesome word of God. That's being a launching pad.

SID: Why do you say a thought is the most significant and important thing we have?

CLARICE: Well, your thought life, it says, "whatsoever things are lovely, pure, truth, if they'd be virtuous, they'd be praised, think on these things." So the thought life, you have to fill your brain with positive things, resist the negative. My mama used to say, "Honey, you can't keep birds from flying over your head, but you can keep from nesting in your hair." So you've got to understand those negative thoughts that just come out of nowhere, you're thinking something

that's just crazy and then you need to say I resist that. And you fill your mind with positive thoughts because your thoughts are going to lead to your words, and your words are going to produce your action.

SID: Remember the story you told me about the oppressed woman walking towards you?

CLARICE: Oh, then that's the declaration. See, I learned that from Kathryn Kuhlman. I was the oppressed woman walking toward her. And so this woman is coming and she's obviously got serious problems. She weighed about 80 pounds and her hair was all gone and she was dressed poorly. She was in a mess. She was coming down the aisle and I said, "You come to me." And she backed off and I said, "No, you come to me now. You come to me now." And you have to encourage people. And she starts towards me. I said, "You are the righteousness of Christ. When I look at you, all I see is Jesus. You are the healed. You are the delivered. You are the prosperous. You are the beloved. You're the apple of God's eye." And she kept walking toward me and walking toward me. And by the time she... Then I ran toward her, I grabbed her and put her in my arms and I said, "Say with me, I believe Jesus is the Son of God." And she says, "I believe Jesus is the son of God."

See, sometimes your faith has to be infused into another person so that they can have the strength to walk in this. We impart. When Paul said, "Oh I long to be with you that I can impart to you a spiritual blessing that will equip you to the end." And this woman was instantly changed. She got born again, baptized in the Holy Ghost and got free of drugs.

SID: I tell you what, you look at Clarice and you say, "She doesn't... I can't even relate to her. She doesn't know what it's like to have nothing, to be hopeless and in poverty." You're wrong. She's been there. She pulled herself out and she says, "You can do it too." Be right back.

*We now return to **It's Supernatural.***

SID: Now, Clarice, your hair is always in place. You have fine clothes. You can't relate to a person that doesn't have enough money to pay their bills each month, can you?

CLARICE: Of course I can. A person with an experience is always more valuable than a person that just has a doctorate. In 10 years we had five children and three miscarriages, so I know about discomfort, praise God, and rearing children.

SID: Totally flat broke.

CLARICE: Oh my goodness, flat broke. We didn't have anything, but we had hope. We had hope. And my husband went into the real estate business and he was smart and I was smart too and we worked together. And then I said, "I know what I'm going to do with my life, I'm going to be independently wealthy. George is going to make millions and I'm going to spend his

money. It's going to be great life." God will let you believe what you need to believe to get you where he's taking you.

So we amassed our fortune and bought our home and did the airplanes and the everything. Everything was great and wonderful and then we get filled with the Spirit of God. Oh my goodness, we had over 10,000 people come through our home and get born again and baptized in the Holy Ghost. And I thought we are called to be givers into the kingdom of God. It never occurred to me that we would be ministers. It was, I didn't want to do that. I mean, don't go crazy, keep me on the sunny side of this. And I remember saying, "Lord, thank you. To know you is better than anything this world has got. Just, just to know you."

SID: Did you really give away all your money at one time?

CLARICE: I certainly did. I'm almost 80 and I have just found out that I'm not getting older, I'm getting better, I'm getting stronger. The infallible word of God is inside of me. My brain is amazing. And that my words flow out of me because God has... He says, "I want you to live full and die empty."

SID: You teach we all have a choice.

CLARICE: Yes.

SID: And you tell us the choice and what to do about it. Explain.

CLARICE: Well, this is my theology 101, God is good, devil is bad. Pick one. Don't make this hard.

SID: That's pretty simple. I mean, with your whole doctorate you boiled it down to that.

CLARICE: Boiled it all down to that. You can study and you can have more degrees than a thermometer, but the reality is don't make this complicated. The only thing God's got to work with is people. We think it's all of the things that we memorize and all the things that we learn and that's all yippee hiya good. But the reality is having the faith of God, not the faith in God, but the faith of God. The faith in God hopes, the faith of God knows. And that we come to the place where you are a man that's created to create an atmosphere conducive for the glory of God. You are consumed and addicted to glory. Okay? So whatever is in you, you will draw it to yourself. You'll find your tribe and there'll be people, men and women that are anointed in this season to bring forth.

I'd like to prophesy that, [foreign language]. The earth is already filled with the knowledge of the glory of the Lord. For the word of the Lord would say, "This is a season and understand the reason for the times of God are upon the earth." And the Lord says, "Now I'm releasing the holy new birth. I'm going to the nations all over the land and I'm going to create a corporate man, a many membered body standing in Christ stead." And the Lord God almighty says, "You need to understand what I've said, miracles, miracles, healing, deliverance and prosperity too." God says, "If you're listening today, that's just for you. You need to say, I am not poor, but I am rich. This

is the day you need to choose to switch. You need to quit saying, I haven't got and I can't get. This is the time. Your past is over, it's time to forget. No more trying to get what you've already got. It's time to move on. To past you must have forgot." For this is what the Lord would say in the day, I am God almighty, I am the great Yahweh. So, my beloved, begin to lay hands upon yourself, don't get left on yesterday's shelf, and begin to agree with the word of truth. Open your mouth and turn God lose."

SID: So Clarice, you're broke, you have five kids, you have no money and God says to go get groceries. What did you do?

CLARICE: All right, well, I got my stuff. When you're in a bad state, you just try to look pitiful. So I had my hair in a ponytail and no makeup and sloppy clothes and the Lord says, "What do you want? What are you complaining about?" And I said, "You know what I want, I don't have food, I don't have transportation, I don't have anything. And I've got the promises of God and I'd like to know where you are." And he said, "Well, if you want groceries, go get them, but do you not going out looking like that." He said, "You need to look like you belong to the child of a King." And so I knew I had to go get all fixed up. He's always said, you don't get a chance to make a first impression except one time.

So I put on my fur coat and I put on this and I go. I don't have any way to go anywhere so I go sit down and my friend comes by and she says, "Oh, how are you today?" And I said, "Could you take me to the grocery store?" And she knew what my challenge was. And she says, "Do you have any money?" And I said, "What I need is groceries." And she said, "Oh my goodness." So we went to the grocery store, I fill two baskets full of everything, choice stuff. I figured if God's paying just get the best. And so she's standing by me and she said, "Oh, well," she says, "I'm going to let you know how much I love you." She says, "I'm going to help you put every bit of this back." Be careful who you travel with. That's one thing.

So anyway, you get through with one basket and they start on the second and this man walks up behind me. I knew him, he's an attorney in town and he had a chicken and a loaf of bread. And he says, "Oh," he says, "Thank God I don't have to feed that brood that you've got." And he said, "I wish I could hear from God the way you and your husband do." And I said, "Well, have you asked him?" And he said, "Oh, sure, just ask him." And I said, "That's the way it works for me." And he said, "God, talk to me," you know, like that. And then he said, "Oh no." And I said, "What happened?" He said, "I heard his voice." And I said, "Well, good." He said, "No, he told me to pay for all your groceries."
